BONDS.

THE DAY'S OPERATIONS IN STOCKS.

The majority of active market interests in Wall Street are looking forward to higher prices for both stocks and bonds in the fiscal year beginning to-day. Business conditions certainress of the war furnishes adequate reason for the belief that war and developments arising as the result of the war will not prove obstacles to the employment of capital in the securities markets. Perhaps a higher range of prices yesterday reflected the cheerful sentiment in Wall Street over the prospects for the future. Anet And it is not unlikely that, a part of the day's Ann buying was induced by the expectation that the American troops would celebrate July 4 in Santiago. Commission houses reported a slightly better inquiry for stocks, but the bulk of the day's trading was for the professional account

It was again a day of special movements, out the whole list shared in the price improvement Brooklyn Rapid Transit was the leader among railway stocks, while in the industrial list Sugar Refining and American Tobacco maintained their customary activity with People's Gas equally as active. The interests that put Rock Island above par are back of People's Gas. Brooklyn Rapid Transit, Chicago and Eastern Illinois and are heavily interested in Alchison securities. Traders who sell these stocks short are to be commiserated. The most conservative houses in the Street are bullish for the "long pull," and they feel absolutely confident that values will sell very high in 1898. They advise the purchase of securities to hold for better prices than those now current, feeling that a National catastrophe alone can undermine the present structure of values. The bears have been working on the market for the last fow weeks, but the fiscal year closes with stocks in strong hands and the bears wholly unsuccessful.

If General Shafter occupies Santiago when the Stock Exchange opens next Tuesday, there will doubtless be some lively changes in prices. Traders who bought stocks yesterday appear to have good chances of making profits, and in case of an American victory the shorts who covered their contracts will be fortunate. London was not a factor in this market. An advance of over 7 per cent in Pullman Palace Car was due to buying inspired by reports of a surplus distribution by the company. Last prices were at reactions from the best of the day, but the majority of issues showed small

THE TRADE IN CHICAGO. Chicago, June 30 (Special).-There was a

strong wheat market up to noon. There were crop complaints galore. Some of them that came from Kansas City would make one believe that there was to be a crop calamity incated by the Government figures only three weeks ago. The speculative demand for wheat was still from shorts, and the best buyer to-day was the same as the leading buyer yesterday, Kauffman, of St. Louis. But he evidently finally got filled up to-day. In the last hour the market turned weak; all the early advance was lost, and after showing 1 to 11/2 cents gain over Wednesday the close was % to % cent under. September opened at 68% to 68% sold between 68% and 69%, and closed at 68% cents. Every one bore in mind that there was a triple holiday ahead, and it inclined the man with any line out to even up. It probably had mour reported 500,000 bushels wheat sold for the pool. It was taken almost entirely by millers, and little for export. Peavey reported 250,000 bushels cash sold. Cables were higher, Liverpool up 1 to 2 pence on futures, but 2 pence lower on spot. The Continental markets were lower on some futures and off on others. Scaboard clearances were 783,000 bushels. "The Price Current" said rust and other damage had reduced the wheat promise, and that the yield would probably be no larger than in 1891. Weekly State Kansas Bulletin" was in about the same vein. It said that there had been a good deal of damage, but added that nevertheless the crop would probably be the largest took place toward the close was the result of the shorts getting filled up. Receipts everywhere were small, only 13 cars in the Northwest and 5 cars here. The people in the cash business say it is extraordinary that the West is offering no new wheat to arrive. St. Louis had only 11 cars of wheat to-day, and only part of it new. Corn was steady early, but closed decidedly weak. There was a perfect weather map; hardly any rain in the corn belt whatever. There was a great deal of realizing by holders, possibly to get out of the way of the hollday, comstock, a leading bull, sold a milfion bushels, and there was a good deal of other selling of the same class. There was an improvement in the shipping demand, 560,000 bushels sold in the break. September closed at 32% cents. The September was a full cent ing. Receipts were 416 cars, with 460 for Friday. Liverpool was 1, to 14 pence higher; seaboard clearances were 290,000 bushels. There were numerous crop damage claims, but they vere outweighed. "The Kansas State Crop Bulletia" said that corn had made good progress in that State. Charters were 320,000 bush-

in corn firmness early and sharp decline at the close. The influences were outweighed by the fine weather, a slow shipping demand and bull liquidation. July sold at 22% and 21% cents, and closed at 214 to 213, cents. September close at 3 cores. Receipts were 196 cars, with 180 for right is reserved. Priday. Clearances were 400,000 bushels. There was a small changing market in provisions, some packers selling, some buying, but with the whole business on a small scale. Pork lard, 5 cents under. Hogs were 5 to 10 cents. The First National Bank, mated for Friday. On the curb, puts on September wheat closed

at 67% cents, calls, 69% cents. Puts on Seporn, 32% cents, calls, 32% 932% cents
